

# Year 10 Chemistry

## Activity 2.2 – Precipitation Reactions

| Reacting Pairs                         |  | NaCl (aq) |  | Na <sub>2</sub> CO <sub>3</sub> (aq) |  | Na <sub>2</sub> SO <sub>4</sub> (aq) |
|----------------------------------------|--|-----------|--|--------------------------------------|--|--------------------------------------|
|                                        |  |           |  |                                      |  |                                      |
| AgNO <sub>3</sub> (aq)                 |  |           |  |                                      |  |                                      |
|                                        |  |           |  |                                      |  |                                      |
| BaCl <sub>2</sub> (aq)                 |  |           |  |                                      |  |                                      |
|                                        |  |           |  |                                      |  |                                      |
| Cu(NO <sub>3</sub> ) <sub>2</sub> (aq) |  |           |  |                                      |  |                                      |
